LiveView
remote video monitoring

As an Owner, Trainer, Livery or Stud Yard Owner...wouldn't you love to be able to monitor the safety and wellbeing of your Horses?

With **LiveView StableCam** you can...

24/7

LiveView StableCam Users say "It's like being in two places at once!"

LiveView StableCam is a unique high quality CCTV camera system that can be easily installed into any number of stables which can be accessed via a network connection eg. internet or mobile phone.

It works using similar principles as CCTV but the output is via your mobile phone or computer. The only requirement is that your computer and/or mobile have an internet connection.

"The quality of LiveView's StableCam video is unmatched." S M Riley, Horse Owner, Halifax

From LiveView StableCam 'Standard'

We recognise that individuals have different needs and that is why we have developed a flexible installation package which can be tailored to your own specific requirements.

Our start-up installation package 'Standard' LiveView StableCam can be enhanced simply by selecting from a whole host of additional features, to create your very own 'Bespoke' LiveView StableCam!

'A Standard' LiveView StableCam system includes...

- Digital video recorder for remote viewing of live and recorded video
- Up to 4, colour, day/night cameras
- Motion detection triggered recording
- Fully installed with software on PCs and mobiles

...to 'Bespoke'

- Up to 16 cameras per video recorder
- Easy access to multiple gateways
- Viewing on CCTV monitors and TV's
- Event notification by email and SMS text message
- Input and output activation sensors eg burglar alarm activation, door opening, switching on lights.
- Integrated audio and video
- Cameras for yard security, horse boxes, stables, individual horses, events, racetracks, jumps, clinics, vets and farms
- Remote Pan-Tilt-Zoom (PTZ) camera control, even from mobile phones
- Larger capacity hard-drive storage for recorded video

Whichever LiveView StableCam system you choose, only LiveView StableCam provides live remote monitoring on your horses 24/7 from wherever you are... now you can be in two places at once!
